Subject: UPDATE to 11524154. - Another propane bracket failure, with pics this time

CAUTION: This email originated from outside of the Department of Transportation (DOT). Do not click on links or open attachments unless you recognize the sender and know the content is safe.

This person owns the exact model year and model of Forest River Georgetown Class A motorhome we do, a 2020 Georgetown GT5 34H5. They just returned from a two-week trip and found the front tank mounting bracket weld broke and the rear bracket is bent from the weight of the propane tank bouncing. Pics attached.
