Yes, these are the facts and what I said. You still did nothing about the fact out of no where my axle broke after stopping at a four way stop, after stopping and continuing to go through the four way my front driver side axle broke out of nowhere and and now at 110,920 mile the car Wilnot acclerate and the tranmission has failed. None of this should happen!! Nissan needs to Do something to rectify these problems!! Those things should never happen, nor should the transmission fail this soon!

Thank you.
