Good evening,

I would just to add that the issues with my car have persisted to the point where I lost all power on the highway in traffic. My car stopped while in third gear and the gas pedal was unresponsive. I shifted through modes and into Tiptronic. No response. Remarkably, I shut the car off and restarted and was able to get the car to move again as cars honked and narrowly avoided hitting me. This is a SEVERE safety issue that needs attention to it before people are killed.
