Narrative Description of Incident(s), Crash(es), Injury(ies). Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e., parts repaired or replaced (and if old part is available).					
The contact owns a 2006 Hyundai Azera. The contact stated that the air bag warning light had illuminated and remained illuminated on the instrument panel for a year. The vehicle was taken to the dealer and diagnosed but no cause for the failure was found. The vehicle was not repaired. The manufacturer was not made aware of the failure. The failure mileage was approximately 307,000. Vehicle was taken to a dealer in Chandler or Gilbert AZ. There was no failure. Air bag light stays on, even after being reset and I was told nothing is wrong. I took my vehicle to the dealer after receiving a recall notice in the mail which I no longer have. I'm not sure when that was, but I was informed of problems with the air bags.
