Hi,

I apologize, I realized I included way too much information in my complaint 11530531 and I would like to edit the web-visible version of it if possible.

If it is possible please change it to:

At approximately 9:30pm CST Saturday June 17th my 2023 Honda CRV Sport Touring has a rapid loss of power while I was driving on an expressway at 60 MPH. Received critical engine failure error message and transmission failure error message. Final error was emission system error with warning to take car in for service. Engine block was shaking severely - car could not move. Car towed to dealership where purchased. Resolution TBD.

Thank you,

[REDACTED]
