Hello Team,

I complained about Tesla Model Y crash due to unintended acceleration on July 10. Our car was unfortunately totaled. I know there is open investigation by NHTSA regarding unintended acceleration, I am waiting for the result since so many people experienced same issue. We requested data logs from Tesla, log we got has all data before and after collision but 40 mins or so are missing during which collision happened, that data would have been very helpful to us. This investigation will be very important for people's safety.

Thank you for all you do to keep people safe.
