CAUTION: This email originated from outside of the Department of Transportation (DOT). Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Thank you for the attached information.

I'm not certain if a response is required from me, so I thought it best to write to you to make certain you are not expecting additional information.

If you would, please advise if there is something more than I need to send; that would be greatly appreciated. If not, I will wait to hear the results of your assessment of my complaint.

Thank you very much for your support.

Best regards,

[REDACTED]

Please see the attached copy of your recent complaint and instructions. Please make any necessary edits and return via email to dataquality@dot.gov or fax to (202) 366-1767. Due to the volume of complaints we receive and our limited resources, we cannot respond to every complaint.

NHTSA/Office of Defects Investigation

Dear Consumer:

NEF-109

Thank you for contacting the National Highway Traffic Safety Administration's (NHTSA) Vehicle Safety Hotline (VSH). The information from your report was entered into our complaint database with NHTSA ID # 11558850. Any information you provide in the future should include this ID number. Your complaint will be reviewed by our staff to determine if a safety defect trend exists that may require our attention. NHTSA staff may follow up and contact a vehicle owner who submitted a complaint if we require additional information.

We do not make your personal information (name, address, phone numbers, etc.) available to the general public. However, if we open an investigation that involves your vehicle, we will provide the manufacturer of your vehicle with a complete copy of your report. The information you provide may assist the manufacturer and NHTSA in determining if a safety-related defect exists.

Any information provided is entirely voluntary. There is no consequence or penalty of any kind if you do not wish to provide it. We seek this information to develop both statistical and investigative evidence that will help identify potential safety related problems in vehicles or vehicle equipment, e.g., tires, child safety seats, jacks, etc.

If further assistance is needed, please contact the VSH at their toll-free number, 1-888-327-4236. You can review a copy of your report on our website at <https://www.nhtsa.gov/recalls> by entering your eight-digit Reference Number into the NHTSA Safety Issue ID field.

Thank you for your cooperation.

Sincerely,

Randy Reid
Chief, Consumer Engagement Division
Office of Defects Investigation Enforcement
