Jan 13

Please note that took to dealer o/a Mar 2023 and they quoted 10.5k to replace the motor which refused to pay as noted latent safety defect. Additionally contacted ford customer service via phone o/a Jul 2023 which explained situation and they indicated that would not remedy latent defect. Currently noted that believe lawsuit in Canada was just filed as documented safety issues (i.e. fires) with engine....

As antifreeze leaking into cylinder vehicle is not currently registered as would not pass pollution test (however did pay the registration fee), in addition to being unsafe to operate

Thank you
