Washington, DC 20590

Thank you for your recent response
to my inquiry about a problem with my
2013 Honda Van

Early in 2023 I began having issues
with my vehicle while driving. The
engine light would come on and the
auto would start missing out. We had
this issue checked out several times
and had repairs done on it that our
mechanic thought would fix it. Nothing
worked for any length of time.

We purchased this vehicle in April of 2015.
I have records of all oil changes, if needed.
However I am only sending copies of what has
been done since the engine problem started and
will send other if needed.

Our tech found there were recalls on some 2013
Hondas for this same problem but did not
include this vehicle.

After the repairs shown on these work orders, the problem continues. The auto light will come on and the auto starts missing out on acceleration and will not go more than 40 miles per hour and wants to stall out.

We are continually changing spark plugs and it seems for a short period of time and starts acting up again. This is definitely a problem as we live in the suburbs of Spring + Houston, Texas. I travel on freeway and 4 lane roads in this area daily. Speed limits are anywhere from 40-65 miles per hour that I travel on daily. It is a definite hazard issue.

Being this particular 2018 Honda has a recall for some of these vehicle, I am questioning if there is one on this vehicle, and if not maybe there should be.

Just checking to see if I can get any help with this issue, as it is definitely a Safety Issue.

Thank you for your consideration

Tomball T/b

P.S. - Some work orders from the mechanic have my son's address instead of ours.

Dear Consumer:

NEF-109

Thank you for contacting the National Highway Traffic Safety Administration's (NHTSA) Vehicle Safety Hotline (VSH). The information from your report was entered into our complaint database with NHTSA ID # 11563124. Any information you provide in the future should include this ID number. Your complaint will be reviewed by our staff to determine if a safety defect trend exists that may require our attention. NHTSA staff may follow up and contact a vehicle owner who submitted a complaint if we require additional information.

We do not make your personal information (name, address, phone numbers, etc.) available to the general public. However, if we open an investigation that involves your vehicle, we will provide the manufacturer of your vehicle with a complete copy of your report. The information you provide may assist the manufacturer and NHTSA in determining if a safety-related defect exists.

Any information provided is entirely voluntary. There is no consequence or penalty of any kind if you do not wish to provide it. We seek this information to develop both statistical and investigative evidence that will help identify potential safety related problems in vehicles or vehicle equipment, e.g., tires, child safety seats, jacks, etc.

If further assistance is needed, please contact the VSH at their toll-free number, 1-888-327-4236. You can review a copy of your report on our website at <https://www.nhtsa.gov/recalls> by entering your eight-digit Reference Number into the NHTSA Safety Issue ID field.

Thank you for your cooperation.

Sincerely,

Randy Reid
Chief, Consumer Engagement Division

13-075 SAFETY RECALL: PISTONS OUT OF SPECIFICATION 2013-09-05

BACKGROUND

A limited number of Pilot and Odyssey engines may have been assembled with pistons that could be out of specification. Pr
cause the engine to stall.

CUSTOMER NOTIFICATION

Owners of affected vehicles will be sent a notification of this campaign in September 2013.

Do an **in VIN status inquiry** to make sure the vehicle is shown as eligible.

New or used vehicles affected by this campaign may be in your vehicle inventory. **These vehicles must be repaired before**

Should a dealership sell an unrepaired vehicle that subsequently causes an injury or damage because of the recalled item, th
damaged party, and will be required to defend and indemnify American Honda for any resulting claims. To see if a vehicle in
VIN status inquiry before selling it

CORRECTIVE ACTION

Replace the short block assembly.

PARTS INFORMATION

13V382000 ENGINE 2013-08-27

DESCRIPTION OF DEFECT

Honda is recalling certain model year 2013 Pilot 2WD and 4WD vehicles and certain model year 2013 Odyssey vehicles. During possible that the heat treatment process was not properly applied, resulting in the piston having an insufficient hardness level, wear.

POST DATE:
C9112

CONSEQUENCE OF DEFECT

A worn piston may suddenly fail, causing the engine to stall, increasing the risk of a crash.

Brought
4-15-22

CORRECTIVE ACTION

Honda will notify owners, and dealers will replace the engine short block free of charge. The recall began on September 16, 2013. Honda's recall numbers are JB4 (Honda Odyssey) and JB5 (Honda Pilot).

NOTES
