---

**Dear Sir/Madam,**

**I am submitting a complaint regarding performance of Porsche Taycan since I purchased December 9, 2023.**

**1. Rasnak, Pasadena Porsche**

**325 West Colorado Blvd Pasadena CA 91105**

**2. Vehicle Vin WPOAA2Y1XRS [REDACTED]**

**3. Service provided by BH Porsche**

**4. Financed by Porsche Financial Services After several**

**complaints Porsche NA expressed only regret of any**

**inconvenience caused by issues i encountered the charger and**

**PCM "Power Control module"**

**Both could cause fatal damage if left unattended before they sell the vehicles.**

**Last but not least the third recall notice dated August 12 which I received after returning from vacation in September. This time Replacing brake hose the left and the right front axle. Replacing brake hose the left and right front axle.**

*PR*

I insisted before this last recall that PNA buy back the car, with this last encounter made me less safe driving alone or with my family members. I request PNA to revive my request for them to buy back or to replace at the nearest possible time. a request denied.

In all fairness staff at Porsche NA extremely helpful but couldn't act except with rules set by management. With your help, I'm hoping we can impeccably settle this quickly.
