Rock Hill, SC [REDACTED]

NEF-109 jb
Ref. No. 11636302

Dear [REDACTED]:

Thank you for the letter about your model year (MY) 2017 Toyota RAV4 vehicle. Your letter was forwarded to the National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation. NHTSA's mission is to save lives, prevent injuries, and reduce economic costs due to road traffic crashes, through education, research, safety standards, and enforcement activity. I am pleased to respond.

We appreciate the report you provided. Among other enforcement activities, NHTSA continuously monitors available information to identify potential safety defect trends. As such, reports from motorists are a very important source of information for us. Your MY 2017 Toyota RAV4 is affected by NHTSA Safety Recall Campaign No. 23V734. The recall addresses a problem with replacement 12-volt batteries that may not fit properly in the battery tray in certain MY 2013 through MY 2018 Toyota RAV4 vehicles. This problem may allow the battery to move and contact the hold-down bracket, possibly causing a short circuit.

We understand your concerns with the parts delay for Recall 23V734. Please note that it is not unusual for manufacturers to have an inadequate inventory of recall parts shortly after a recall is announced. Recall parts availability can be affected by numerous factors including, but not limited to, redesign, testing, manufacturing, and logistics. In addition, Toyota has decided to conduct Recall 23V734 in phases due to the volume of affected vehicles. Toyota informed NHTSA the final remedy MY 2017 RAV4 vehicles will be available in late July 2025.

When you receive the final recall notification indicating the parts are now available, you should contact Toyota and your dealer to schedule an appointment as soon as possible.

Finally, please complete an electronic Vehicle Owner's Questionnaire on our website at www.nhtsa.gov or call the Vehicle Safety Hotline at 888-327-4236 if you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future. You can also review complaints, safety recalls, manufacturers' service bulletins, etc. on our website. I hope you find this information helpful.

Sincerely,

[REDACTED]

Randy Reid, Chief
Consumer Engagement Division
Office of Defects Investigation
Enforcement
