Dear Sir or Madam: (hopefully not fired by Trump)

I am writing to complain about Toyota's failure to repair a recall # (23V-865 NHTSA) re the passenger airbag possibly not deploying.

this issue has been outstanding for over 6 months and remains unrepaired.

Toyota recommends not allowing anyone to sit in the ~~pass~~ front passenger seat until repaired. What good is the car if you have to make your wife sit in the back seat for 6 months!

I spoke with Toyota today and they still have no timetable for fixing the problem. Please help.
