Please explain the problem and the resolution/outcome you are seeking:

Manufacturer's mandatory "Driver Awareness Warning" My complaint is against Hyundai, but other Auto Makers have the same alarm. It is not an accurate indicator, and an extreme distraction. Personally It doesn't bother me with the coffee cup and take a break message, I don't stare at the instrument cluster, but the beeping does, as I constantly look for the cause. I should be able to disable any function I don't need to utilize. I uploaded the files sent in previous email hopefully got it right.

Here is one you probably haven't seen before, but here goes. I just bought a new Hyundai Venue for my wife to do here round about runs. I have actually drove it a time or two. Problem is the DAW Driver Awareness Warning, is a major distraction in Johnson County Traffic. The beep and take a Break display takes our attention off the road. My 22 Hyundai has the same alarm, but it is able to be shut down, not my 25. This is an annoying distraction and judging from blogs shared by thousands of more nationwide. Is there any way either through congressional action or NHTSA recalls of correction. I have contacted Hyundai to no avail, 10 minutes I filed an complaint with NHTSA , now you. This alarm is an EU thing not American at least yet hope you are willing or able to assist.
