Dear Administrator:

RE: DANGEROUS VEHICLE WARRANTING A NATIONWIDE RECALL OR BAN – VINFAST

I am writing this letter to you with great stress and anxiety and with great concern for the motoring public. My car a 2024 VINFAST VF8 had a part failure [REDACTED] the steering rod BROKE apart! A steel material breakage/fracture that indicates an inadequacy of the material used, not of the manufacture or assembly of the parts. It is a very dangerous failure to occur, for the car driver and passengers and for the public, in general.

BROKEN STEERING ROD

RIGHT WHEEL ASKEW, LEFT STRAIGHT

Handwritten signature or initials.

WHEELS CANNOT BE TURNED

TOW TRUCK'S HYDRAULICS USED TO STRAIGHTEN WHEELS FOR LOADING

Vinfast has introduced their brand and models for the first time to the USA market in the past 3 years only. From the internet social media, I have seen similar posts of such kind of failure of the steering rod. The US DOT may have its own data. I believe that this make/brand should be banned or recalled as soon as possible to prevent any harm to the motoring public. This failure will cause catastrophic crashes when driving at highway speeds! The vehicle should not be considered roadworthy, in my honest opinion.

VEHICLE REGISTRATION DOCUMENT PRESENTED HERE AS PROOF OF OWNER/UNDERSIGNED'S BONAFIDE CONCERN FOR PUBLIC SAFETY

To prevent Vinfast/**Manufacturer** from tampering with the evidence, I suggest that USDOT sequester the vehicle ASAP, which is currently garaged at:

- Vinfast Repair Service Facilities
South Glendale Avenue
Glendale, CA 91205
United States of America

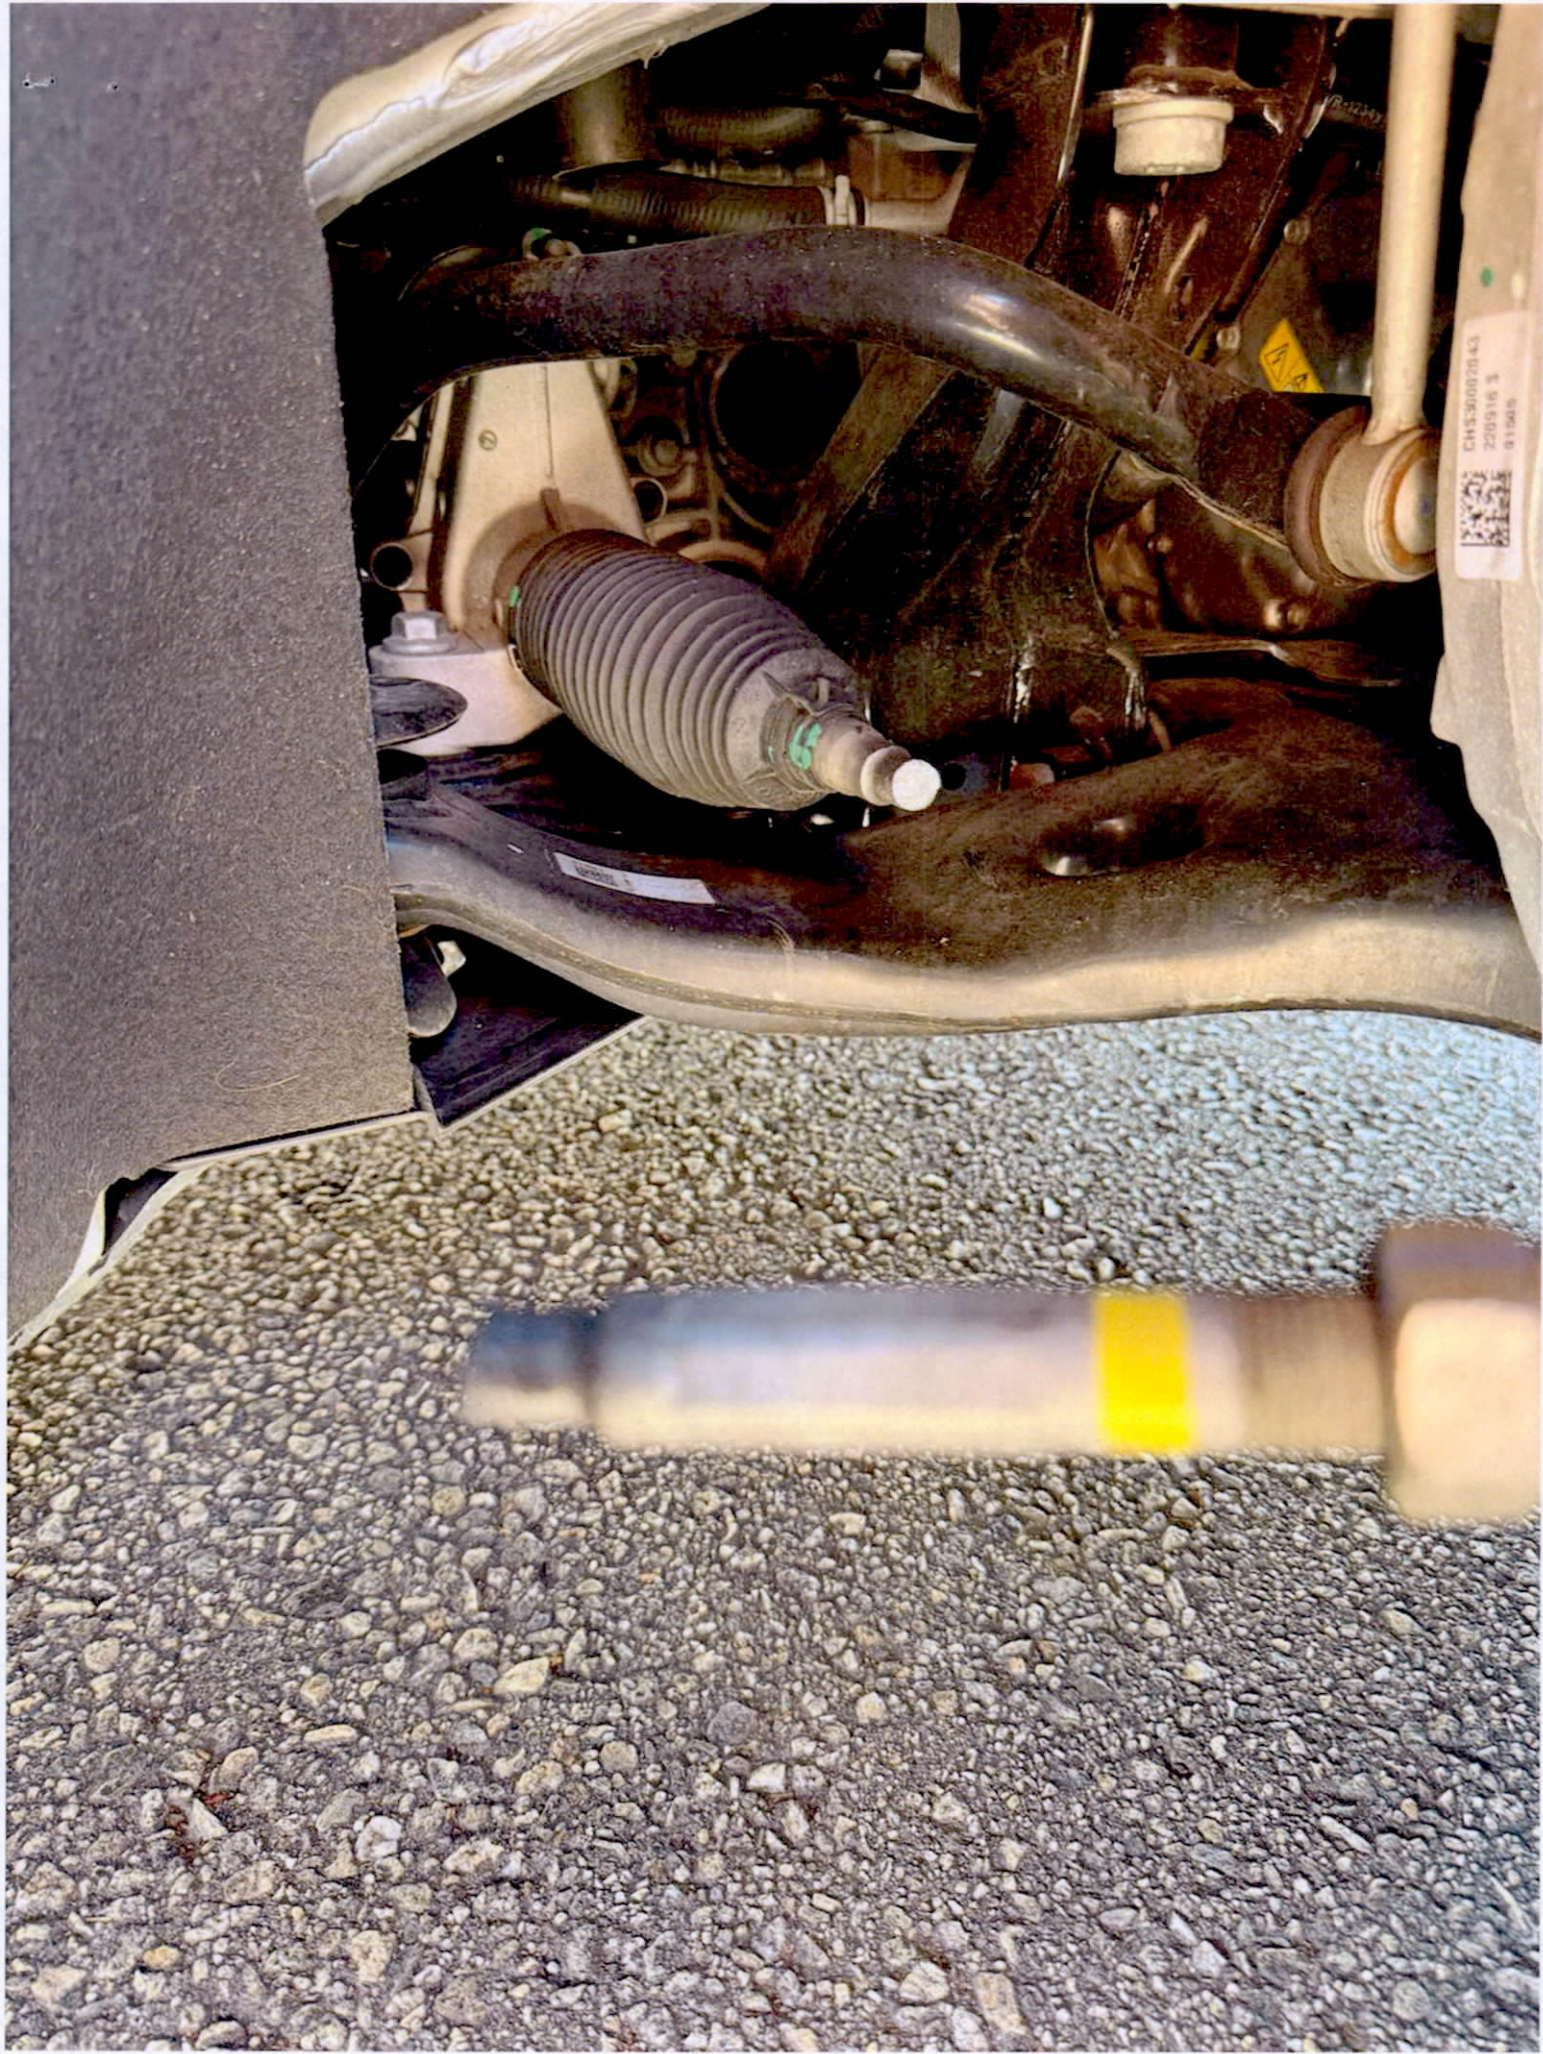

Hoping for your immediate action regarding this concern.

Very truly yours,
