Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies).

The air intake system for the engine sucks in rain water causing the air filter to collapse shutting off air to the engine for combustion, causing vehicle to stall and become inoperable on the highway. This problem has existed for over 1-yr that I know of. Ford has been promising a fix for at least a year. Call 1-800-449-3311 ask about fix for water problem, 1st test promise maybe in 45 more days. Dead motorhome on highway is a safety problem.

The Privacy Act of 1974 - Public Law 93-579 This information is requested pursuant to 49 U.S.C. Chapter 301. You are under no obligation to respond to this questionnaire. Your response may be used to assist NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If NHTSA proceeds with administration enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.
