Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies):

After entering parking space of Car is in standard position, driver must apply right foot on brake foot pedal to go into park. While this procedure is being done & before right foot can reach foot brake pedal, Car rolls 4 to 6" in forward motion and puts strain on transmission. Also this can cause bumping of Car in front in tight location. Called Chevy Dealer + Customer relation. Was told this is the way the Car is and "live with it". This also happens on reversing, to start Car + go to drive -
