Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies).

1-18-01

We bought a 1998 Chevy Blaz. 4x4 with 39,000 miles. We had it 2 days when it shifted down in 4 wheel drive from 2 wheel drive while setting still. We took it to dealer, they order a new switch & put it in there. They told me they had several Blazers same year to do that and given worst. I called several other GM dealers & I was told they had the same problems on Chevy Blazers & GMC Jimmy's the same year. I was told if it slipped down in 4 wheel drive while

The Privacy Act of 1974 - Public Law 93-579 This information is requested pursuant to 49 U.S.C. Chapter 301. You are under no obligation to respond to this questionnaire. Your response may be used to assist NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, in statistical summary, thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

You were going down the road faster than 50 miles per hour that it could cause major problems and could even scarify the driver.
This should be checked out on A wider bases to see if this problem may have caused any accidents or major damage to vehicle.

Thank you
