Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

The Hood of this vehicle came crashing down after I opened
it up to check the oil & water levels. The gas shocks that
are used, have stopped working, causing this situation
to be very dangerous in the event that the hood starts
to come in the head or hands! I have also notified
Nissan via complaint # 3375751 (1800 Nissan), as of
2/16/2001
