Crash ☐ Yes ☐ No	Fire ☐ Yes ☐ No	Number of Persons Injured	Number of Fatalities	Reported to Manufacturer ☒ Yes ☐ No
---	--	---------------------------	----------------------	---

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies): Engine stalls after being warm on hot on initial start up. Engine goes to low RPM (50) or stalls out completely. after restarting, engine will run correctly. Have had back to dealer 4 times for this defect. Dealer's corrective action has not solved problem. Dealer's Factory Rep. stated there was a problem. I consider this not only a problem but could lead to accident in traffic.

Continue on back.

The Privacy Act of 1974 - Public Law 93-579 This information is requested pursuant to 49 U.S.C. Chapter 301. You are under no obligation to respond to this questionnaire. Your response may be used to assist NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If NHTSA proceeds with administration enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.
