 DEFECTS INVESTIGATION

Dear Sir:

I want you to know that on or About December 17-20 of ~~1999~~ 1998 Me and my wife (Angela) was on a Six line Hiway 101 North in the Fast lane at 65 M.P.H. and we had a Blowout, and the top Trend came off on a Firestone Tire in the Fast Lane with a very Heavy Traffic, and I can not get to the side of the Road in Sunnyvale.

I called 911 on my Car Phone and the CHP, they had to Radio the other CHP Car back Five Miles to make a Rolling Stop, to Slow Down the Traffic and Stop the Traffic, the CHP then had to make a traffic brake, and Caltrans (State of California) Blocked the sides of incoming traffic, to stop incoming Traffic on my side of the Road for Five miles so that I can get to the side of the Road.

This Right Front Firestone Tire Had a Blowout, with the top trend peeled off, we then went to Pepboys in Sunnyvale, CA and buy a New Tire for this Car.

Date:09/06/2000

Thank you,

"A American Native Federal Government of 67 Tribes"

P.S. I said it was on or about December 17-20 of 1999, but it was about December 17-20 of 1998 because it happen before the death of my dad, and he died on April 19, 1999

Note: The Firestone Tire blowout is Recorded on the CHP 911 Tape
