SIZE

NARRATIVE DESCRIPTION (CONTINUED)

The car would always take the last move when in brake position. It jerks like in another gear. As if you had the car in park and want to put it in drive. The car always takes the last movement on its own. It's has always leaks oil in the hood area on the right side. Smoking always noise on the right driver side when on brake and right driver side. When I bought the car it already had the jerking problems and Mike House said bring it back we will find out the problem. I have brought it 5-6 times. Never was the problem solved until the day 3.14.02 R.
