Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

After purchase of car air bag light on dash (SRS) Repeatedly came on. Car was brought back to dealer approx 8x. System was reset on each occasion, only to be lited hours later or even the next day. We purchased the car from Robert Keir (the original owner and my parents) Just before purchase the SRS light came on for them. Honda charged them \$685.92 for repairs. This problem is on going. In 3/01/02 my wife and daughter had an accident with front impact at 20-30 mph with no deployment of either air bag. It has been about a year since our last try at rectifying this problem, But we just cant be going back week after week for the dealer to trouble shoot this problem. They will not give us a car while they try to figure this problem out.
