Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Vehicle will have engine "cut off" - Stalls. Does not restart, nor does it
try. When starting, no sound is made. I have been bringing to the dealer
with this problem over two weeks. (possibly 3) I have replaced, (by
the dealers request..) battery, battery cables, removed alarm system,
put in new starter, replaced crank sensor and sometimes come
back from dealer with nothing done because they just don't know.
Vehicle will have engine failure at "any time". Very inconsistent.
Now, the dealer is telling me, its possibly the computer.
