Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

This repair needs to be done, because coolant is getting into the motor oil which could cause engine failure. This has been going on since April 2003. If this does not get repaired we will have worse problem that would include probably a head engine. We asked the dealer if this was a recall and they said no. Then why I ask is there no parts for this to be fixed. Do we have to have van does not run anymore? We need some help to get this moving. There are many vehicle sitting and waiting for this repair.
