Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

I was driving to work and I began to slow down to make a right hand turn to proceed up a steep hill. As I went to brake to bring the car to a stop there were no brakes! All power had shut down. Luckily the cars in front of me had moved on and I was able to turn right (coasting) safely and pull the emergency brake to stop. I was very frightened and I didn't trust the car after that. I'm glad it happened before work and not after when I would have been coming down the hill. The Mazda representative said if it occurred again to quickly start the car in neutral.
