NARRATIVE DESCRIPTION OF FAILURE(S), INCIDENT(S), INJURY(IES)

THE CONSUMER RECEIVE A RECALL NOTICE FOR THE AMPLIFIER TO THE SPEAKER MARCH 2 2002
THE CONSUMER HAD IT DONE AND A COUPLE OF MONTHS THE PROBLEM STILL REOCCUR. PH

The first time we had this problem the amp started
smoking we we were on our way out to breakfast.
my wife and newborn were in the back. The radio
stop playing no music, someone told me it was the amp
I never knew it was a recall. So I purchased one from

The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond this questionnaire. Your response may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

The junkyard after awhile that one started doing the same thing when you turn it on popping high pitch noises coming out of the speaker. Then it happens I receive a Recall notice for Acura. They repaired it some what but there was a slight crackling. 36 months later I take it back they hear it and says it is doing the same thing. but they can't do anything because this one has not started smoking, and they can't fix it recall twice. I called Acura Customer relations and was told by a representative that it is between myself and the dealer. So the Service Manager says he speaks to his district manager and has not gotten back to meet till this day.
