The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond this questionnaire. Your response may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

INFORMATION ON TIRE FAILURE(S) (IF APPLICABLE)

TIRE IDENTIFICATION NO.*														MANUFACTURER/TIRE NAME	SIZE
D	O	T													

* The identification number consists of 7 to 10 letters and numerals following the letters DOT. It is usually located near the rim flange on the side opposite the whitewall or on either side of a blackwall tire.

NARRATIVE DESCRIPTION (CONTINUED):

Princeton Ford-Mercury replaced rear fuel pump, this did not help problem, they replaced front fuel pump at their cost, because Ford Motor Company could not tell them for sure which pump to replace.

I complained to Ford Motor Company my self about this problem in August 1997. I also called them again after reading about this problem you had, in our local paper. They told me that my Vin number was not in the recall.
