AJ Foyt Honda
22575 Hwy 59 N
Kingwood, Tx 77339

1999 Isuzu Rodeo - Vin# 4S2CK58W2X4372217

Type of Coverage - 60 month 75000 miles

Expiration Date - 10/20/04

5) Purchased on 10/20/1999

6) Mileage on purchase date - 4096. Mileage when first problem was reported to AJ Foyt on 11/24/99 - 6118. Current mileage 7500.

7) Existing problem, vehicle was wrecked due to brake failure on Jan 5, 2000 and is currently at AJ Foyt pending report from Isuzu District Representative.

History of problems:

1. Vehicle was taken in for repair when CD player was jammed
2. Taken in on 11/24/99, mileage was 6118, for brakes locking up on highway in traffic and check engine light staying on.

listen to popping noise brakes was making. Was unable to hear noise due to rain.

4. Vehicle was taken in on December 20, 1999 for noise coming from brakes and check engine light staying on, mileage was 7362.
5. Vehicle was picked up on December 27, 1999 when finance manager, Rick Fontenot, drove car and attributed noise to calipers and 15in tires.

8) same as #7

9) I, the complainant, feel that this vehicle creates a safety hazard to my family and myself, due to number of problems I have had with the brakes not working properly. Moreover, A.J. Foyt Isuzu Service Department has not been able to determine where the problem is originating. Subsequent to running in a ditch, hitting a tree due to brake failure, I question how many more times the brakes will fail. In addition, I am also afraid the brake failure can lead to more serious injuries, such as a fatality.

10) After picking up vehicle from D & D Collision Body Shop on February 17, 2000, the brakes failed again nearly causing another accident. The brakes made a grinding noise, kept rolling and then stopped.

INFORMATION ON TIRE FAILURE(S) (IF APPLICABLE)									
TIRE IDENTIFICATION NO.									
0	0	1							
MANUFACTURER TIRE NAME								SIZE	
The identification number consists of 7 to 10 letters and numerals following the letters DOT. It is usually located near the rim flange on the side opposite the whitewall or on either side of a blackwall tire.									
NARRATIVE DESCRIPTION (CONTINUE)									

First incident, brakes locked up, dealership turned ~~not~~ notes. Second incident reported popping noise when pressing brakes. ~~Third~~ Third incident, brakes failed. Had car accident. Picked up Rodeo 2/17/00 from D & D Collision when I made it home brakes did not stop ~~when~~ immediately. The ~~brakes~~ ^{vehicle} made a grinding noise then stopped. Called Mike Cook - dealership manager about 3:30 pm to let them know, left message on voice mail. I also called State Farm Insurance to advise them of brake failure and of receipt of vehicle back into my possession.

The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.
