VEHICLE WAS PARKED FOR OVER AN HOUR WHEN IT CAUGHT FIRE AROUND THE DASH OR WITHIN THE ENGINE COMPARTMENT. VEHICLE WAS TOTALED. PLEASE PROVIDE ANY FURTHER DETAILS. *AK IT'S KIND OF odd THAT 1991 TRUCKS AND 1992 CARS HAD THIS PROBLEM. COULD SOME OF THE 1991 PARTS HAVE BEEN USED ON 1992? IF THEY RAN OUT? THE TRUCK WAS TO BURNED UP FOR ANYONE TO BOTHER LOOKING AT IT. THANK GOD I KNOW ONE OR THERE THINGS GOT HOT.

INFORMATION ON TIRE FAILURE(S) (IF APPLICABLE)

TIRE IDENTIFICATION NO.*

D O T

MANUFACTURER/TIRE NAME

SIZE

* The identification number consists of 7 to 10 letters and numerals following the letters DOT. It is usually located near the rim flange on the side opposite the whitewall or on either side of a blackwall tire.

NARRATIVE DESCRIPTION (CONTINUED)

First so you know I called Ford. The man was very nice. He took a report. But could not do anything. I called again to see if there was some way to get some help from Ford to buy a new truck. A discount or something. The lady I talked to was not very nice. I got 5 yr of payments. only one year left to pay. I got \$2,000. from the INS. plus they paid it off. In a year from now the truck would have been all mine and worth about \$8,000. Its wrong. A truck that new should not burn up like that. Thank you very much for the kind and understand people work for you. Thank you [REDACTED] 2-29-2000
