INFORMATION ON TIRE FAILURE(S) (IF APPLICABLE)

TIRE IDENTIFICATION NO.*

D D T

MANUFACTURER/TIRE NAME

SIZE

* The identification number consists of 7 to 10 letters and numerals following the letters DOT. It is usually located near the rim flange on the side opposite the whitewall or on either side of a blackwall tire.

NARRATIVE DESCRIPTION (CONTINUED)

Listen up! My name is GLEN Briggs SR. I am the owner of a 1992 Ford Pickup F150 4x4. I'm sorry to say and yes I am under a lot of distress when I drive this truck because it doesn't give you no warning whatsoever when you drive it. I am scared it will cause a wreck someday, and I've had it in the shop more than once, and they say the scan passes and there is nothing wrong with it, and I was told that is was in the computer systems but it would be hard to prove. If you don't have the money to fight it in court and Ford company knows this, it would be a wasted time and money to try to do something about it. Maybe someday some innocent person will lose their life because of this problem, and then something will be done about it like the 6 1/2 Mustang gas tank problem. That the Ford company kind so long.
