NARRATIVE DESCRIPTION (CONTINUED)

The differential was in a lot of parts (many parts fell out of the Trans when the dealer went to put into Box to send back to The Main ~~Chrysler~~ Chrysler Company). The Auto Tech told us this after he replaced the Trans. This tells us the problem is ~~in~~ going. I was told that the Trans in the Dodge & Chrysler don't hold up as other do (like Chevy & Ford). Other people told us that they had problems with the Chrysler they had and sold because of this problem after I got my car. At this time the Trans still does not feel the way it should. My husband has 25 years in the Auto Tech field and he says the same it don't feel right. DATE ~~Book~~ 4/13/00 miles 42032
