The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Fold to show Return Address (no stamp needed) Fasten with tape or staple and mail

INFORMATION ON TIRE FAILURE(S) (IF APPLICABLE)

TIRE IDENTIFICATION NO.*

D O T

MANUFACTURER/TIRE NAME

SIZE

* The identification number consists of 7 to 10 letters and numerals following the letters DOT. It is usually located near the rim flange on the side opposite the whitewall or on either side of a blackwall tire.

NARRATIVE DESCRIPTION (CONTINUED)

Reading about the California recall and they said they are evaluating the situation!! In the meantime I could get killed if it stalls in heavy traffic moving along at 55 mph.

I should add it stalls EVERY time I take it out after about 10 minutes of driving. So far, it has always re-started after sitting on the roadside for 10 minutes but who's to say that will continue. Ford shouldn't wait until I am injured or killed before correcting the problem like they did with the Firestone tire debacle.
