Don Sir of Madam, 1-30-01

I talked to Ford Customer Service on

1-15-01, 1-800-392-3673. They found paperwork

back and forth with Fallon auto mall (paperwork

included) to Don the service mgr. Don told

Ford that I needed to bring the vehicle in

for more tests. "After bumping up with Don

the service mgr. I call Fallon auto mall service

dept. back and talked to Don the service mgr.

He then put his transmission mechanic on

the phone. He told me that he owned a

truck of the same type, same problem.

He only used it for fishing he said on

level and (I don't fish) ^{He said he would send me} ~~the~~ ^{the} ~~problem~~ ^{problem}

truck. This is a full size truck not a

built in trailer truck. I don't know if

this would cause serious problems w/ the

ring or not, but it does climbing mountains

through the bay pass. you simply have no

power after 62 mph. I'd alone you can't

have a car on level roads after 62 mph!!

truck can make for power, and handling, in

this one if disappear after 62 mph!!??

Sincerely,

concerned

"not one of Ford's letter head"

PS I have to this date not see back my 1000 to Diagnostic test for this problem
