INFORMATION ON TIRE FAILURE(S) IF APPLICABLE

TIRE IDENTIFICATION NO.*

D O T

MANUFACTURER/TIRE NAME

SIZE

* The identification number consists of 7 to 10 letters and numerals following the letters DOT. It is usually located near the rim flange on the side opposite the whitewall or on either side of a blackwall tire.

NARRATIVE DESCRIPTION (CONTINUED)

I started my car where I live, just drove around the corner to dump my garbage. I noticed smoke coming out of the pass. side underneath the compartment - the smoke bothered me as I had heart surgery - I tried to open window could not. so I quickly back car out of way of other cars parked there & it is a parking area for tenants. I went to my door bells no one answered. I was in luck as a person that works at this complex was coming down the path. I told him my car was smoking. but as I looked it was already on fire - He called police & fire Dept. - I was so lucky they came and put fire out. I was so lucky car did not explode. I had with classic Luke & friends enclosed is a copy of Classic Luke & turns in. He has served my car for 20 years - I was ill the last time I saw my car - I was in luck - Tom Ryan

Dear Sir

Classic Tune n Tune Inc. Serviced
my car for 20 years. I purchased
a brand new 1977 Pontiac - I drove that
car for 21 years - which Classic kept in great
shape - the last time he serviced that car
was 4/29/98 It still ran great - I gave
that car to my son-in-law Tom Ryan as
he loved that car and the way it drove - Then
I purchased the 1996 Ford Taurus. (Big mistake)
It lasted a little over 3 years (purchased used)
from Soyville Ford.

Mrs. [REDACTED]

Sent some of the Mechanics bills that I have
found some ~~where~~ were in the glove comp. of car.
Classic Tune was my main mechanic - The
last time I had it looked at when my son-in-law
Tom Ryan brought the car to new mechanic to
be serviced - I was ill - My car has served
every so many ~~miles~~ miles.
