The vehicle was sold to Bob Ridings. I wanted out of the vehicle because it was costing way too much to repair. I had planned on repairing my car & took real good care of it. The brakes were worked on 6 months before the accident I paid \$150 for a new brake. Jimmy's Service Center worked on them. (Taylorville IL) something is wrong with the brakes and it seems to be a kind of defect because the man who repaired the car (body damage) drove my car and one day brakes seemed fine and the next day something was wrong. I don't know who is at fault for the brake problem the manufacturer or Jimmy's? When 6 months your brakes should not go out all the sudden. There is a warranty or should be a warranty for brake repair to last a while at least a year or so. My insurance is still working on this claim. Thankyou
