At 6,000 miles at my expense I had head gaskets
and motor rebuilt. When they were a week old
I was informed that almost all of it. When a gas
motor starts my car was misfiring again. My husband
said it was the same day it was. RTME again
said they could rebuild the motor but my wife Monty
I might have the same problem. As \$700.00 dollars
water and gas motor's adjustment a car. They found
the problem. A Bear in the hood
that Ford should have to remember me the
money in it of and pay me for the headgaskets
I've had out of this car. I want my car
fixed. When though, the always had good service
in the past out of the other car like covered. Sincerely
