NARRATIVE DESCRIPTION (CONTINUED)

Since August 1998 I have had just about everything on this vehicle replaced thru factory warranty or Kia's Recalls. The vehicle has stalled or lost power on numerous occasions in traffic and on interstate highways without any notices. Several 18 (eighteen) wheelers/Tractor trailers had to swerve to keep from running in the back of me while on I-95. The vehicle wouldn't go over 30mph when these failure/incident occurs. Malloy Kia has diagnosed the problem as: 1) Fuel Inj. 2) Head gasket 3) Wiring harness 4) Transmission and 5) Major Tune-up. The problem still exist. The vehicle is a Death Trap, lemon and/or a manufactured defect.

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million (1990–2000) and is projected to increase by a further 1.5 million by 2020 (Office for National Statistics 2001). There is a growing awareness of the need to develop strategies to meet the needs of the ageing population. The Department of Health (2000) has identified the need to develop a 'new paradigm' for the care of the ageing population, one that is based on the principles of 'active ageing' and 'positive ageing'.
