

Narrative description of incident(s), failure(s), crash(es), location(s), and injury(ies). Include additional accidents if applicable.

Seat belt broke during first use in passenger seat (front). Seat belt latch was inserted into the car and release button broke immediately. Unable to disengage. Had to roll the person unrestrained seat. Would not have been able to get out if seat belt locked in an accident because there would not have been any slack in the belt. While trying to disengage belt (by pushing on button) sigl caught under in reel, but remained engaged until completely disassembled. This type of belt is difficult to get free in the back seat.

Continue on additional pages if necessary.

Describe any additional incidents. (include date and mileage)

The Privacy Act of 1974—Public Law 93-502: This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your responses may be used to assist the NHTSA in determining which is a manufacturer and what value appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your responses, or a statistical summary thereof, may be used in support of the agency's action.
