

Narrative description of incident(s), failure(s), crash(es), location(s), and injury(ies). Include additional accidents if applicable.

I took the car to the dealer on 7/27/00 for a check up and a state inspection.

I was told that the car had two broken rear springs and a right side roller. The rod and an addition to front brake pads.

The mileage at that time was 67049.

I believe the spring were of poor quality. To be fixed after the little use. The tie rod end should also not be worn out at that time.

Continue on additional page if necessary.

Describe any additional incidents. (include date and mileage)

The Privacy Act of 1974 (Public Law 93-579) The information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your responses may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with an initiative independent of litigation against a manufacturer, your responses, or a statistical summary thereof, may be used in support of the agency's action.
