

rash(es), location(s), and injury(ies). Include additional accidents if applicable.

On Oct. 25, 1991, when my minivan was less than 2 years old, the Chrysler dealer in Fremont, CA replaced the transmission for no charge. On Aug 30, 1996, the Chrysler dealer in Santa Rosa replaced my defective transmission with another defective transmission. It only lasted a year before I had it replaced again by the same Chrysler dealer on Sept. 19, 1997. Obviously, this replacement transmission was also defective because now my minivan needs its FIFTH transmission. It's very dangerous to have a transmission go out when you're driving. You lose control of your vehicle. It suddenly stops on you and you can't control the speed. These cars are dangerous.
