Figure 1 consists of two scatter plots. The left plot shows a positive correlation between the number of children (x-axis) and the number of mothers (y-axis). The data points are scattered, and a regression line is drawn through them, showing a positive slope. The right plot shows a negative correlation between the number of children (x-axis) and the number of mothers (y-axis). The data points are scattered, and a regression line is drawn through them, showing a negative slope.
