PLEASE DO NOT WRITE IN THIS AREA

05979

Narrative description of incident(s), failure(s), crash(es), location(s), and injury(ies). Include additional accidents if applicable.

Bought new RV on 16 March 2001
Had 2014 RV installed & tire
valve extenders on both front
tires and the two outside rear
tires. To make checking tire
pressure easier, within the
first 500 miles two rear
tires went flat. RV was
towed I had 3700 miles
on the RV. I had three
more flats and a
blowout. The tire and
valve extenders. Since
I have known the
extenders, I have not
had a problem. There are
at least 10 of the tires
with extenders failed on
the, have several times
the extenders should
be bonded - there are
extenders designed.

Continue on additional page if necessary.

Describe any additional incidents. (Include date and mileage)

The Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Administration. You are under no obligation to respond to this questionnaire. Your responses may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with a determination of a manufacturer's responsibility, your responses, or a statistical summary thereof, may be used in support of the agency's action.
