With Cruise on @ 64mph,
I heard a big POP and a
couple of Flaps, then the
motor home QUICKLY Viewed
to the right with no
Control over it. We
smashed into several
trees, totaling the
motor home. All 3 people
aboard was cut up but
as one seriously injured.
The two on the tire
separated to come off
the core of the tire.
I also seen another
6159 good gear tire that
did the same thing.
I do have pictures of the
other one but not mine.
I could possibly find
the tire if needed.

Describe any additional incidents. (Include date and mileage)

The Plaintiff of 1977—Pharm Law 93-578. This legislation is considered important to publicly traded firms in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your responses may be used to assist the NHTSA in determining if, within a reasonable risk/benefit approach, action to correct a safety defect. If the NHTSA proceeds with administrative enforcement of litigation against a manufacturer, your responses, if a statistical summary thereof, may be used in support of the case they wish to bring.
