

FUNDAMENTAL LTV GROUPS, 1985-2011
(Shared Body Platforms)

1. The first line of the definition assigns a five-digit number to the LTV group; the first two digits indicate the manufacturer, (1=AMC, 6=Chrysler, 12=Ford, 18=GM, etc.); the third digit indicates the LTV type (2 = pickup truck, 3 = SUV, 4 = van, 5 = incomplete pickup, 6 = incomplete van, 7 = other types); the last two digits are sequential and generally chronological for that manufacturer and LTV type.
2. The second line assigns a name to the LTV group and gives the limits of the range of model years for the various make-models in the group. LTV groups are often named after the largest selling make-model with that body platform and/or the wheelbase of that platform (to the nearest inch).
3. The third line specifies the type of LTVs included in the group: compact or full-sized pickup, compact or full-sized SUV, compact or full-sized van, or car-based pickup.
4. The fourth line shows the range of wheelbases of the LTVs in that group, as derived from "Light Truck Specifications" in Ward's Almanac or Automotive News.
5. The remaining lines list the specific make-models included in the LTV group, including a five-digit make-model code, the make-model name (plus additional specifications such as "extended cab"), a range of model years, and the VIN characters that identify specifically which LTVs belong to this group (V3 is the 3rd character of the VIN, V34 is the 3rd and 4th character, etc.).

American Motors (Jeep) LTV Groups

Pickup Trucks

LTV group 1201

Jeep "J" Pickup 118.7, 1985-1986

Full-sized pickup truck

Wheelbase 118.7 (short bed)

2211 Jeep J-10 4x4 short-bed pickup, 1985-1988 V67=25
