Attention: VIN Coordinator, Mr. Kenneth Rutland

Dear Mr. Rutland:

This letter is in answer to your requirements for information necessary to decipher the characters contained in our vehicle identification number.

R.V. Classics, Inc. is in the business of manufacturing motor homes. In order to comply with your requirements for information necessary to decipher the characters contained in our VIN we are submitting the following method for deciphering them.

Our calculations for the 17 digit VIN numbers were established in the following manner:

Digit Number

- 1 = 1
- 2 = R
- 3 = 9
- 4 = M (Motor Home - Class "A")
- 5 = A (With dinette) or B (Without dinette)
- 6 = 1 (26' coach) 2 - open
- 7 = 1 (Engine type 3.8 L-V6 Front Wheel Drive)
- 8 = F (Gross vehicle weight 7,000; to 8,000 lbs)
- 9 = 1 (Check digit)
- 10 = F (Year Model -1985)
- 11 = 1 (Plant location - Salem, Utah)
- 12 = 0
- 13 = 5 (Assigned manufacturer code)
- 14 = 9
- 15 = 0
- 16 = 0 (Sequential production number, beginning with 001)
- 17 = 1

1

The Vehicle Identification Numbers will be placed in the following locations on the motor homes:

1. Located inside the passenger compartment in front of the driver position, viewable from the outside of the motor home.
2. On the outside of the frame 24" from the right front corner in the middle of the frame.

If there is any further information required, please call me on (801) 423-2209.

Sincerely,

LeGrand Vreeken
President
