ORIGINAL

Attention: VIN Coordinator, Mr. Kenneth Rutland

Dear Mr. Rutland:

We have need to add another option in the manufacturing of our motorhome. The option is another type of engine; a 360 CID V-8 with front-wheel drive. Digit Number 7 will now be as follows:

Digit	Number	
7	1	= (Engine type) 3.8L-V6 Front-Wheel Drive
	2	= 360 CID V-8 Front-Wheel Drive

All other digits and numbers will remain the same. The attached sheet shows the calculations for the 17 digit VIN including the new option for digit number 7.

If there is any further information required, please call me on (801)423-2209.

Sincerely,

LeGrand Vreeken  
President
