Subject : Request for the improvement on ES350 & Camry All Weather mat
--

We appreciate your continuous activities to improve the quality of C&A accessories.

As I have mentioned on my previous letter (Ref NoCAEA07-0455 dated 14th of September 2007), our restarting sales target of All Weather mats is due at the beginning of November.

This is a request from NHTSA considering winter season is approaching and the usage of this mat will expect to increase.

Therefore we would like to request again to make design change, mold modification and manufacturing arrangement in time for above mentioned target.

The details of design change and mold modification have been agreed with Mr. Jim Wimmer and Mr. Jacob Hoffman.

We prepare to inform NHTSA of this campaign on 26th of September.

We will appreciate your swift conduct for this matter along with this timeline.

Thank you for your corporation as always.

If you have any questions, please do not hesitate to contact Mr. K. Funato or Mr. Y. Atsumi at any time.
