Subject Lexus & Toyota All Weather Mat Returns

History:

This message has been forwarded.

Hi All,

The attached Toyota and Lexus communication bulletins were sent to dealers regarding the part numbers listed below. As instructed, dealers will be contacting you to begin the return process using a TMP claim and the R8 code for these parts. Please work with your dealers to return these parts as quickly as possible.

PT908-33071-02  
PT908-33071-11  
PT908-33071-14

PT908-33070-02  
PT908-33070-11  
PT908-33070-14

All part returns and on hand stock need to be held at the PDC until replacement parts are available (approximately 6 to 8 weeks). Once replacement parts are available CAD will communicate re-work instructions that will need to be completed by the PDCs.

Thanks for your cooperation and if you have any questions regarding this return or processing the return please contact Brigitte McLeavy.
