

Order Process

Dealer & Toyota Region Order / PPO (Post Production Option)

Step 1

Dealer goes into Dealer Pipeline Management System.

Step 2

Adds accessory code to requested vehicle.

(Accessory code is a two digit alpha character that correlates to a type of accessory.)

Step 3

Accessory code is added to the Traveler

(Traveler is a production Tag with all accessory codes that a vehicle must have)

Step 4

VDC verifies code on Traveler

(VDC: Vehicle Distribution Center)

Step 5

VDC installs accessory, our in the case of All Weather Mats the VDC places them in the trunk of the vehicle. Dealer our customer may install mats.

Dealership Order for DIO installs and over counter sales

Step 1

Parts manager places an order on the inventory management system.

Step 2

The order is sent to the PDC.

Step 3

PDC picks the part and ships to requesting Dealership.

Step 5

Dealer or customer may install accessory.
