National Highway Traffic Safety Administration
Attention: Early Warning Division (NVS-217)
Room 217
1200 New Jersey Avenue, SE
Washington, D.C. 20590

Dear Associate Administrator:

We are transmitting the enclosed Report of a Defect in a Vehicle in a Foreign Country.

Very truly,

John Gibbons
Senior Manager
Technical Compliance

Encl.

**REPORT OF A SAFETY RECALL OR OTHER SAFETY CAMPAIGN
IN A FOREIGN COUNTRY**

1. Manufacturer

Renault S.A.S., France.

2. Vehicles Potentially Involved

Model year 2009 Renault Kangoo vehicles produced from April 1, 2009 to April 24, 2009 at Renault S.A.S. in France. No vehicles sold in the United States are affected because they use a different front brake hose as discussed below.

3. Total Number of Vehicles Potentially Involved

Approximately 10,755.

4. Description of the Defect

Some front brake hoses may be shorter than the specified length due to an inappropriate production process at the supplier. This could cause the rubber brake hose to come out of the crimped metallic connector on the end of the brake hose assembly while driving and brake fluid may leak.

5. Foreign Country in which the Safety Recall or Other Safety Campaign is Being Conducted

Algeria, Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Finland, France, French Guyana, Germany, Greece, Hungary, Ireland, Italy, Lithuania, Martinique, Morocco, Netherlands, New Caledonia, Norway, Poland, Portugal, Saint Pierre and Miquelon, Singapore, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey, Ukraine and United Kingdom.

6. Date of Determination

May 17, 2010

7. Determination Made By

Manufacturer

8. Date the Recall or Other Campaign will Commence

June 2010.

9. Descriptive of Corrective Action

Owners of potentially affected vehicles will be notified to take their vehicle to a dealer. Both right and left front brake hose assemblies will be replaced with correct ones.

10. Vehicles in the United States (If known)

Under §579.4(d)(iv), model year 2007-2010 Nissan Sentra vehicles and model year 2008-2010 Nissan Rogue vehicles sold in the U.S. are deemed substantially similar to Renault Kangoo because they are manufactured on the same platform. However, the Nissan Sentra and Rogue are not otherwise similar to the Kangoo, and do not share the front brake hose assembly. Specifically, the Nissan Sentra and Rogue use a front brake hose assembly that is different in design and manufacture from the one that is subject to a foreign recall.
